Act of 1871 by IET

Act of 1871
A thread by IET17
This is Long but it will end with a MEGA BOOM!
Promise!

With no constitutional authority to do so, Congress created a separate form of government for the District of Columbia, a ten-mile square parcel of land (see, Acts of the Forty-first Congress," Section 34, Session III, chapters 61 and 62).

The act — passed when the country was weakened and financially depleted in the aftermath of the Civil War — was a strategic move by foreign interests (international bankers) who were intent upon gaining a stranglehold on the coffers and neck of America.

Congress cut a deal with the international bankers (specifically Rothschilds of London) to incur a DEBT to said bankers. Because the bankers were not about to lend money to a floundering nation without serious stipulations, they devised a way to get their foot in the door of the United States.

The Act of 1871 formed a corporation called THE UNITED STATES. The corporation, OWNED by foreign interests, moved in and shoved the original Constitution into a dustbin. With the Act of 1871, the organic Constitution was defaced — in effect vandalized and sabotage — when the title was capitalized and the word "for" was changed to "of" in the title.

THE CONSTITUTION OF THE UNITED STATES OF AMERICA is the constitution of the incorporated UNITED STATES OF AMERICA.

It operates in an economic capacity and has been used to fool the People into unknowingly becoming indentured and indebted to the new corporation, THE UNITED STATES, and that it governs the Republic. It does not!

Capitalization is NOT insignificant when one is referring to a legal document. This seemingly "minor" alteration has had a major impact on every subsequent generation of Americans.

2. Republic vs Democracy
-They needed to get away from the Republic and create a Democracy in order to drive us towards socialism and inevitably a dictatorship (National Socialist Party aka NAZI)

government. It can only exist until the voters discover that they can vote themselves generous gifts from the public treasury. From that moment on, the majority always votes for the candidates promising the most benefits from the public treasury with the result that a democracy always collapses over loose fiscal policy, always followed by a dictatorship. The average age of the world's greatest civilizations from the beginning of history, has been about 200 years. During those 200 years, these nations always progressed through the following sequence: from bondage to spiritual faith; from spiritual faith to great courage; from courage to liberty; from liberty to abundance; from abundance to selfishness; from selfishness to complacency; from complacency to apathy; from apathy to dependency; from dependency back again to bondage."

- Some say it is a flag of Admiralty/Maritime type jurisdiction and is not supposed to be used on Land. Others say it's not a flag at all, but fiction.

However, the gold fringe which surrounds the flag gives notice that the American flag has been captured and is now being used by the corporate so-called government to give notice of its jurisdiction.

- The flag shown above is Not described in Title 4 of USC and therefore is illegal on land except for maybe (1) the President since he is in charge of Naval Forces on high seas, and (2) naval offices and yards.

-The so-called justification for a Naval/Maritime flag to be on land is that all land was under the high water mark at one time even if it was eons ago. (Great Flood anyone???)

Not forced to be a citizen of any group.
Not forced to inhabit any territory.
Not forced to join the militia or military.
Not forced to pay un-requested services.

The Northwest territory and possessions were governed by three separate and distinct branches or Departments equal to each other as a power and control of a segment of government while being on the same playing field laterally in position to each other.

- Legislature
  (Constitution; Article I)
  –can enact **positive law**
- Executive
  (Constitution; Article II)
- Judicial
  (Constitution; Article III)
  –known as article III courts

The purpose of having these separate and distinct branches at the same level is for checks and balances so that no one man or branch of government has complete power.

The legislative Branch consists of the Senate and Congress.

The purpose of the Senate was originally designed to voice states rights while Congress voiced the peoples rights.

The Senators were chosen by the states and were not elected by the people.

Together, they can come to a conclusion that meets the rights, interests, and benefit of both the state and the people.

Separation of Powers

Congress and the Courts
are under the President.
Did you ever wonder why Congress is ignored by the President?

The President is the Chief Executive Officer (C.E.O.) of the government corporation. Impeachment today is nearly impossible, unless it is in the best interest of the controlling bankers and the one-world government elite.
Also, what most people do not realize is that most courts today are legislative courts and not Judicial.

The so-called (corporate) Congress
bills by **resolution**
not by positive law.

Therefore, the position of power is as follows:

1. President (C.E.O of the corporation sits as Caesar
   –does not need congressional approval)
2. Legislature (The new Congress and Senate voices Public Opinion)
3. so-called Judicial (Legislative, Article I courts) opinionate what's best for the corporate so-called government and the elite
4. Non-existent Judicial
   (Article III courts)
   except for Special circumstances
   that benefit the elite

The top position has control over the second position and the second position has control over the last position vertically and not laterally.

There are no checks and balances unless the President is concerned with a potential revolution based on the outcry of its citizens.

Each **puppet** that comes into office wears a different costume but ends up serving the same master. (The **Masters** are the Elite and Bankers operating behind the scenes)

5. Medium of Exchange
-Used to be Gold and Silver
-now we play with paper and digital money, that is basically a grandiose IOU created out of thin air, that the bankers collect back with interest, all designed to further the wealth disparity between the elite and The People. Debt with interest is a system of perpetual debt continually passed on to the people beneath until the debt gap consumes all but those who own the debt.

Lawful Money	Legal Tender Units of Monetized Debt
Has **substance**	Has no substance--Built on credit
Controlled by Treasury of the united States of America	Controlled by US Treasury
Real Money Assets of value such as gold or silver or can be exchanged for same. Many of the older generations of the American people were taught to write the "S" with two lines through it. The two lines was a derivative of the "U" inside the "S" signifying "Units of Silver". The United States of America silver dollar is the accepted and approved uniform monetary unit (coin standard). The United States of America did not issue paper money until 85 years after its independence from Britain, and when it did, it was backed by silver or gold. Even at that, early Californians refused to accept and use paper currency, especially the people in San Francisco.	Phony Money Not backed by assets but thrives on faith alone. Today, all computer programs, stock certificates, financial paper, accounting records, balance sheets and summaries, bills, bonds, Promissory notes, bank paper such as checks, et cetera use the familiar symbol $ having only one line through it to denote the amount of debt considered. All Notes are "I Owe You's" (IOU's) including **Federal Reserve Notes** (FRN's) All Notes represent debt. The corporate UNITED STATES is in bankruptcy and has no assets but can only monetize debt.

6. Sovereigns vs SUBJECTS

The word "OTHER" makes **the mother "an informant."** By signing the "Birth Certificate" as an informer, she contracts with the government putting her child and her child's future labor as collateral for the national debt (servitude--slavery). The father or mother can rescind the contract within three business days (Truth-in-Lending).

Since the Birth Certificate neither lists the father as the husband nor lists the wife's acceptance of the father's surname as her own but has the mother's maiden name instead, the baby is considered a **BASTARD**. "Stop and think for a moment as to voting. When you vote for an office to be filled in the UNITED STATES OF AMERICA or one of its SUB-CORPORATIONS (THE STATE OF TEXAS), you have voted to fill a fictional corporate position designed to represent the CORPORATION, not a political position to represent the people. Judges

The judicial officer is usually a coordinator who acts as on behalf of the people, for the good of the people, who swears by 'oath of office' to abide by and uphold the Constitution, and is there to give prisoners and counselors equal opportunity to present their case, with fairness and justice to all, whether it is pertaining to a controversy or one accused of a crime or injustice. The people are the ultimate "judges" of both the law and the facts.

If you have not spoken to the judge's wishes, the judge, without proper cause, will send the non-conformist to a psychiatric ward for evaluation (intimidating) and sometimes all there is to be dragged and not released until one is willing to conform to the judge's bias.

These so-called courts are not "in law" but are simply acting on behalf of a corporate business entity. Examples include the Department of Equity Courts, Superior courts, Federal courts, Civil courts, Municipal Courts (Municipal Law), Military Law, Martial Law, Territorial Court, Marital proceedings, and administrative or hearing tribunals (similar to Administrative) and appear to be governed by "The Manual of Courts Martial" (under Rule of War) and the "War Powers Act of 1933."

The "organic" Constitution and its amendments.	cannot sue the Master (Corporate government) unless allowed to
Ten first (or) articles of amendment to the constitution are sometimes referred to as "Bill of Rights" which is incorrect. They are not a "Bill" but are already "amendments."	The actual "Bill of Rights" was a recitation in 1689 by King William and Queen Mary to their loyal subjects of the British crown. If you are in the jurisdiction you are a subject the prince as well.
Due Process is required	Due Process is optional—Sometimes Dredd-like justice without hesitation.
Innocent until proven guilty. "No Bill Of Attainder or Ex post Facto Law shall be passed."	"Guilty" until proven "not guilty" (Especially when dealt with issues relating to the corporate government, its agents, and its highwaymen.) The so-called judge will ask, if one is "guilty" or "not guilty." Always claim to be "innocent." A "plea" enters you into a binding contract with the so called court.
Jurors judge the law as well as the facts Jurors are the last bastion of hope to free one from tyrannical or unjust laws imposed by government. **Jury nullification** "Jury nullification occurs when a jury returns a verdict of "not guilty" despite the common belief that the defendant is guilty of the violation charged. The jury in effect nullifies a law that it believes is immoral, unconstitutional or is wrongly applied to the defendant whose fate it is charged with deciding. Traditionally jurors are free to disregard the judge if they feel he is part of the system of oppression. Jury nullification is an essential protection for citizens against governmental tyranny." —John Tillany. AmericanFreeDom.net	The judge instructs the jurors to try only the facts (not the law, status, or citizen). The judge usually gives the status, legislation, code, rule, etc. that will most likely convict the defendant. If there is any dispute with the so-called law, the judge will declare "I am what the law is". If there is any more dispute with the law, the judge will say, "I will hold you in contempt if you continue in this manner." **A Disgruntled Juror** Malcolm Brooks testimony on video before the National Press Club on November 3, 2009 (19 min 24 sec)

Federal or State, can not question the ruling; read the 7th amendment. The State and federal Courts are inferior tribunals to We the People's one supreme Court. The one supreme Court exist whenever the People convene it ...the People have agreed to convene it at the county seat and the county judge is elected by the people as the administrator of their one supreme Court of Record. He makes no judicial ruling. He is only there to keep the Court open and see that it is run orderly and enforce the judgments of the Court of the People. When the jury is called and has been sworn from among the People they are the twelve justices sitting as the one supreme Court of Record for the People of that county."

Thomas Jefferson warned about that the Courts would overstep their authority and instead of interpreting the law would begin making law, an oligarchy, the rule of few over many.

The very first Supreme Court Justice, John Jay, said, "Americans should select and prefer Christians as their rulers."

Determinations ARE NOT appealable as are Judicial Determinations? Legal determinations are anything the judge says they are under their colorable Public policy laws. However, Judicial determinations are in accordance with the Public Law and are subject to CONstitutional constraints."

"Since the Erie RR v. Tompkins decision in 1938, the courts have been operating under Public Policy, in the interest of the "nations creditors," instead of Public Law in accord with the CONstitution."

"The judges are not allowed to consider any case law prior to 1938! BUT, there is one case, Clearfield Trust, et al v US, 318 US 363 (1943), (see attachment). All courts are Administrative Tribunals, operating under a Colorable Admiralty Jurisdiction called Statutory Jurisdiction and all judges are Administrators, and all Lawyers (Pronounced Ly'Er) are officers of the colorable courts."

Indirect tax verses Direct

In some states, an indirect tax is implemented on certain specific items. Other states may not have any indirect tax, while others may have an indirect tax on all items sold by corporations. Although "**direct taxes**" are unconstitutional, "**indirect taxes**" are acceptable. A man or woman still has a choice to pay the tax or not. For example: Do not buy cigarettes if you do not want to pay the indirect tax. a "**direct tax**" is appropriate only by means of apportionment under certain circumstances.

Sales Tax and Sales Permit

Only corporations are required to pay sales tax. The sales tax is what corporations are required to pay as creatures of the corporate government. But they got ordinary people volunteering to pay up front sales tax on their behalf directly. They also got other companies to collect sales tax up front as well by making a "Sales Permit" mandatory to enter corporate trade shows. A "Sales Permit" is a license and makes one obligated to collect taxes and to turn them over to the corporate government. Out of ignorance, most companies volunteer to obtain a license even though it is voluntary. Most government people enforcing Sales licenses assume every company is required to collect sales tax. That is what the majority believes.

12. Taxation
-Taxation is theft
-Income Tax is unlawful
-Inheritance Tax is unlawful
-BUT all are legal and limitless under the Laws of the Corporation

Taxation	TAXATION
Limits on taxation	No limit on taxation
Direct taxes such as "**Income taxes**" are **unlawful**	Income taxes are legal when properly applied and are ever increasing.
Indirect taxes such as **excise tax** and **import duties** are lawful	Other taxation's such as inheritance taxes are legal when properly applied.

Records	RECORDS
Ex-officio clerks County Clerk is also Clerk of the superior court, (i.e. a court of common law) and "**courts of record**" Records are also kept by Sovereigns such as in a **family Bible** Churches, in the old days were also known to keep records.	County Clerk **Recorders Office** Created by statute to keep track of the corporate government's holdings which are applied as collateral to the increasing debt. The written records are a continuation of the "**Doomsday Book**" which keeps track of the Crown of England's holdings. The "Doomsday Book" originated as a written record of the conquered holdings of king William, which was later the basis of his taxes and grants. Whenever something is registered it is actualy being put into the kings domain. The word "**registered**" is derived from the word "regis" which means "**kingly**." Therefore, recording a document today is the same as registering it and putting it into the **kings domain**. Properly recorded or registerd at the recorders office makes the corporate de facto government "holders in due course." Anything registered can be taken away at any time, that includes cars, guns, and your home. Your TV is not recorded there, therefore you are "holder in due course" for the TV.

16. Free Enterprise vs Corporatism (USMCA)
-The thing created (the corporation) becomes more powerful than the creator (man) who created it. Man is no longer free but is subservient (a slave) to the corporate structure. The corporate structure needs to reduce the wages of its human resources to decrease cost to increase profit to keep growing.

-Corporations eat each other and grow bigger and more powerful thereby allowing fewer persons having big egos controlling the lives of the common folk from cradle to grave.

The people engage in **free enterprise** by trading one labor for another's labor.

There is no filing, registering, or obtaining permission or licensing from any government structure.

The people are responsible for themselves and each other.

The people do not rely on insurance to overcome irresponsibility and capricious-ness.

The thing created (the corporation) becomes more powerful than the creator (man) who created it. Man is no longer free but is subservient to (slave) to the corporate structure. The corporate structure needs to reduce the wages of its human resources to decrease cost to increase profit to keep growing.

Corporations eat each other and grow bigger and more powerful thereby allowing fewer persons having big egos controlling the lives of the common folk from cradle to grave.

Corporations have no feelings. Corporations primary purpose is to grow and are thereby less responsible and less sympathetic towards the people, thereby rely on and utilize insurance or other resources such as the corporate government to bail themselves out of irresponsible critical situations.

Most often, people start with a free enterprise but choose to be incorporated into the government structural system. To incorporate is to become a part of something bigger. Therefore, corporations are constructs created by the so-called government and are no longer a free enterprise. Corporations become big unaccountable monsters who eventually control government by putting their people into office to maintain control. These monsters got out of their cages when they made fictions such as corporations equal with people by calling them "persons" having the rights equal to people. Most corporations eat each other up and become huge monsters, thereby creating monopolies that stifle "capitalism" in its true meaning. Corporations do not want competition. They want to eliminate competition using their power and politicians they purchased. They want to capture the system and use it for their benefit.

The Washington establishment, and the financial and media corporations that fund it, exist for only one reason: to protect and enrich [themselves]. The establishment has trillions of dollars at stake in this election.

For those who control the levers of power in Washington, and for the global special interests they partner with – these people that don't have your good in mind – our campaign represents a truly-existential threat, like they haven't seen before.

This is not simply another four-year election. This is a crossroads in the history of our civilization that will determine whether or not We the People reclaim control over our government.

The political establishment that is trying to stop us is the same group responsible for our disastrous trade deals, massive illegal immigration, and economic and foreign policies that have bled our country dry. The political establishment has brought about the destruction of our factories and our jobs as they flee to Mexico, China, and other countries all around the world.

wealth, and put that money into the pockets of a handful of large corporations and political entities.

This is a struggle for the survival of our nation. And this will be our last chance to save it. This election will determine whether we are a free nation or whether we have only the illusion of democracy, but are in fact controlled by a small handful of global special interests rigging the system. And our system is rigged.

This is reality. You know it. They know it. I know it, and pretty much the whole world knows it. The Clinton Machine is at the center of this power structure. We've seen this firsthand in the WikiLeaks documents, in which Hillary Clinton meets in secret with international banks to plot the destruction of U.S. sovereignty in order to enrich these global financial powers, her special-interest friends, and her donors. Honestly, she should be locked up!

The most powerful weapon deployed by the Clintons is the corporate media, the press. Let's be clear on one thing: the corporate

agenda is not for you. It's for themselves.
Anyone who challenges their control is deemed a sexist, a racist, a xenophobe. They will lie, lie, lie and then again, they will do worse than that. They will do whatever is necessary.
The Clintons are criminals. Remember that.
This is well-documented and the establishment that protects them has engaged in a massive cover-up of wide pread criminal activity at the State Department and the Clinton Foundation in order to keep the Clintons in power.
They knew they would throw every lie they could at me and my family, and my loved ones. They knew they would stop at nothing to try to stop me. Nevertheless, I take all of the slings and arrows gladly for you. I take them for our movement so that we can have our Country back. I knew this day would arrive. It's only question was when. And I knew the American People would rise above it and vote for the future they deserve.

Democracy Dies in Darkness

August 11, 2020 at 4:00 a.m. MDT

Over the weekend, President Trump issued four executive orders, asserting power to defer payroll taxes and provide expanded unemployment benefits, among other things, all without going to Congress. These actions are alarming enough: They effectively seek an end-run around Congress's "power of the purse," which enables the legislature to dictate what taxing and spending the executive branch may pursue.

He told Fox News last month that the Supreme Court gave him "powers that nobody thought the president had." Trump appears to believe that the Supreme Court's decision in June barring him from rescinding the Obama administration's Deferred Action for Childhood Arrivals immigration program gives him the unilateral authority to suspend federal payroll taxes altogether, or cancel Obamacare coverage requirements, legal limits on immigration policy and any other laws he dislikes.

The White House on Monday released its first stand-alone proposal for higher-education reform, urging the U.S. Congress to enact laws affecting accreditation, Pell Grants, and student-loan repayment.

The plan repeats themes raised in President Trump's 2020 federal budget proposal and reflects division between Democrats and Republicans over the federal government's role in regulating the forces that shape colleges and the for-profit sector.

Trump's budget proposal for 2020, released last week, includes a $7-billion cut in the U.S. Department of Education, a changed student-loan repayment process, and the elimination of the Public Service Loan Forgiveness program.

The last century has produced an American economy where more jobs than ever before require at least some postsecondary education or skill development. Wage premiums and job security continue to be associated with postsecondary education or skills attainment; however, the rising cost of college education and the accompanying growth in student loan balances erode the wage premium associated with a college degree.

Well national parks and monuments are land that is owned by the federal government. In this case, the corporation of the United States. Obama designated whatever he wanted as national monuments and Trump said it was a wild abuse of power. Why. Meet your New Fed Chairman, Donald J. Trump

Everyone should read this article, it explains how we were able to absorb the Fed and what it means going forward. https://www.bloomberg.com/opinion/articles/2020-03-27/federal-reserve-s-financial-cure-risks-being-worse-than-disease

You're probably asking yourself, "how are we getting all of this money to give to the Citizens for Economic Relief due to COVID? If we are taking it from the FED aren't we more in debt?"
>If the US Dept of Treasury owns the FED then the Federal Government owns the debt. If DJT owns our debt do we really even have debt?

Even better, Donald Trump is using what is known as the ESF, or Exchange Stabilization Fund to fund our Economic Recovery. On paper it is controlled by the US Treasury but operated by the Federal Reserve as a means of stabilizing the value of the dollar. Since there isn't any gold to back it up, they can either inject or withdraw dollar amounts from this fund in order to maintain a certain value of that dollar. They also then adjust interest rates as well. This ESF, pulls money from the IRS (your tax dollars) to fund itself.

Officially in charge of defending the dollar, the ESF is the government agency which controls the New York Fed, runs the CIA's black budget, and is the architect of the world's monetary system (IMF, World Bank, etc).

"Our success depends on a coalition of strong and independent nations that embrace their sovereignty, to promote security, prosperity, and peace, for themselves and for the world."

"We do not expect diverse countries to share the same cultures, traditions, or even systems of government, but we do expect all nations to uphold these two core sovereign duties: to respect the interests of their own people and the rights of every other sovereign nation."

We will take back this country for you
And we will Make America Great Again

>>>Every action he has taken has been to undo the Act of 1871 and the Corporation formed because of it. Not only that but the reason all of these other nations are so willing to join him and make deals is because he's promising them sovereignty.
